

Data **Talk.**

DataTalk Panel HMI

Designed for operators. Built for industrial reality.

HW+SW
Bundle

Quad-core ARMv8 (2.4 GHz)
4 GB SDRAM, 32 GB eMMC

2.4 GHz & 5 GHz
dual-band Wi-Fi

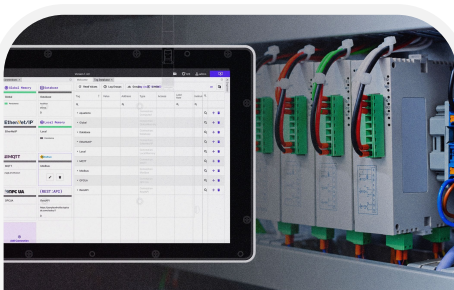

Power Failure Protection
(Supercapacitor)

Temperature range
-20 °C to 50 °C

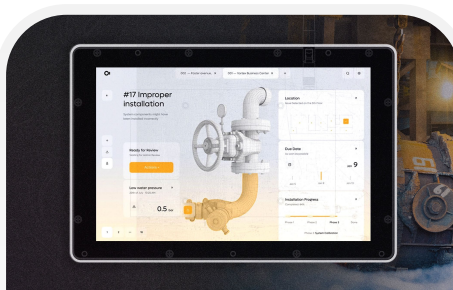

ALL IN ONE

Built for Any Challenge

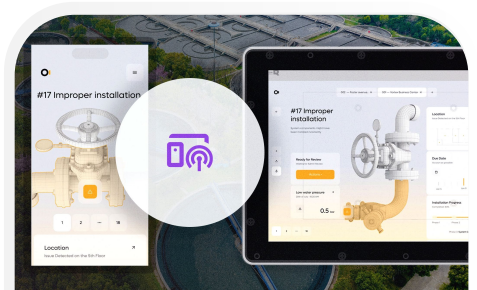

Universal by Design

Connect directly to **machines**, **PLCs** and **production systems** across different manufacturers and protocols-ready to work wherever you need it.

Ready for Tough Conditions

Designed to perform reliably in **harsh industrial conditions**, with integrated **protection against power failures**.

Remote Accessibility

Securely **access your panel from anywhere**, see what's happening in real time and **solve issues remotely** before sending someone on-site.

SIEMENS

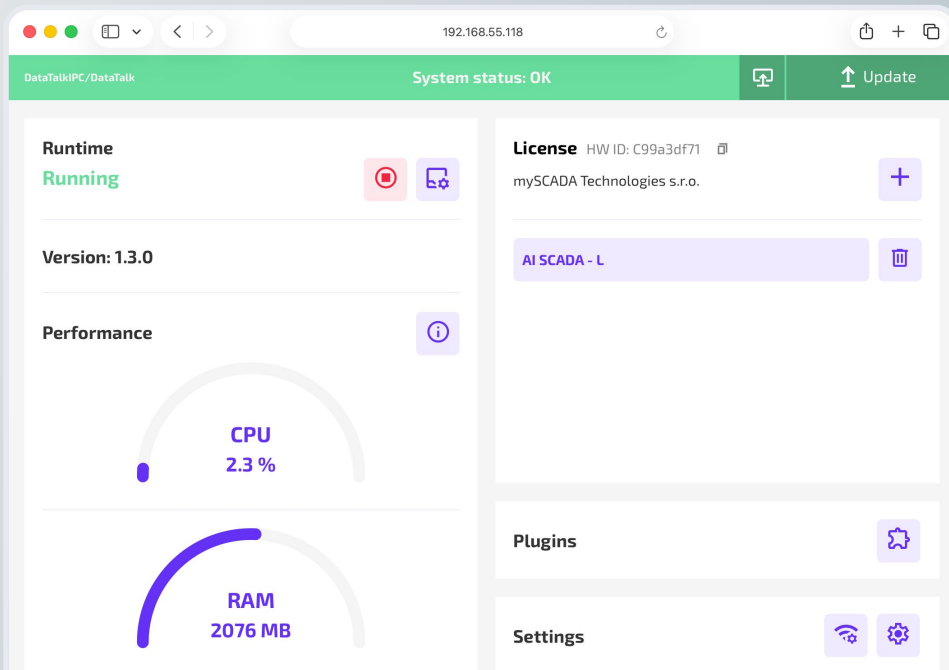

EtherNet/IP™

OPC UA

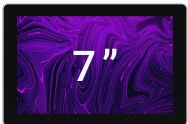

MQTT

Web-Based Configuration

Easily access and manage device settings through your browser with a secure, user-friendly interface-no additional software required.

Technical Specifications

SW License

Manager + Web HMI

LCD Size
7.0" TFT

Aspect Ratio
16:9

Resolution
1024 x 600

Luminance (cd/m²)
400

Voltage
9V - 36V DC

Dimensions (mm)
188 x 123 x 43.6

SW License

Manager + Web HMI

LCD Size
10.1" TFT

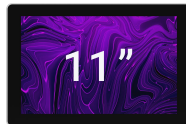

Aspect Ratio
16:10

Resolution
1280 x 800

Luminance (cd/m²)
400

Voltage
9V - 36V DC

Dimensions (mm)
258 x 172 x 42

SW License
