Real-time Dashboards

create, customize and visualize data insights

FREE: 50 Tags S: 500 Tags M: 2 500 Tags L: 10 000 Tags Enterprise: **UNLIMITED Tags**

Build **real-time dashboards** in minutes. Choose from a rich library of **ready-to-use graphical elements, charts and tables**. Simply **drag and drop** them to your dashboards and bring your data to life.

Key Advantages

Universal Connectivity

Connect to any machine, access its data, and build real-time dashboards in minutes.

Real-time Control

Stay in control with real-time and intuitive dashboards – wherever you are.

Store, Manage & Analyze

Acquire, store, and visualize your data with an integrated historian.

SIEMENS

EtherNet/IP™

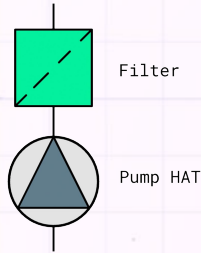

Graphical Elements Library

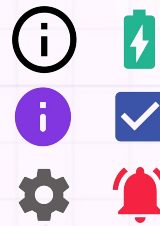

Ready To Use Elements

PI&D Symbols

Google Icons

Bitmap Images

Main Features

Process data from **PLCs, IIoT sensors, MQTT, databases**, etc.

Log data into a **time-series database (Historian)**

Combine **live and historical data** using graphical elements

Use charts, gauges, PI&D symbols and **250+ elements**

Build dashboards with **drag & drop** module

Control factory using **smart phone** or **tablet**

Protect critical data with **on-premise solution**

Utilize **no-code graphical compute module**

Technical Specification

Connectivity

OPC UA, Modbus TCP/UDP, EtherNet/IP, EtherNet/IP (Micro 800), MQTT, Rest API, Databases

Operating System

Windows Windows 11 – 23H2 and newer

Linux Ubuntu – 22.04 and newer, Debian 12 and newer, Raspian 12 and newer

Docker Any environment that supports Docker images (for example, Docker Desktop on MacOS)

Assets

Default Graphical Elements Analog Gauges, Digital Gauges, Bars Vertical, Bars Horizontal, Buttons, Data & Time, Displays, Special, User Interface, ...

Custom Graphical Elements Create your own vector graphics and elements in our integrated visual editor.

PI&D Symbols Centrifuges, Compressors, Crushes, Dryers, Filters, Instrument, Mixers, Motors, Peripheral, Pumps, Valves, Vessels, ...

Icons & Material Symbols Outlined, Rounded, Sharp

Bitmap Images Upload your own images in .jpeg or .png format.
